Subject: RnB estimate

Looks like CBI/Ex. 4 was a good estimate. I don't have everything exactly known, but am probably long on hours due to being able to shuffle with GK. But...we'll hurt for that later so hopefully won't do too much of it. I estimated Russ's pump to cost approx the same as mine. Do we need a fan/large generator for RnB? I have the cost of the generator in the estimate, but need to get with Spendrup if we're providing the fan. I'm sure we talked about that but I lost it.
